

Litco's Inca FIBC and Bag Pallet

PRODUCT ADVANTAGES

The Best Pallet for Shipping Bagged Products

- ▶ For use with FIBC (Flexible Intermediate Bulk Containers, Super Sacks, Bulk Bags) and Multi Bag packaging.
- ▶ Prevents costly spills and contamination.
- ▶ Save labor costs: Handle FIBC's with one person versus two.
- ▶ Ultimate lead edge protection from fork tines.
- ▶ Eliminate wood pallet related bag damage: No nails or staples to puncture the bags.
- ▶ Eliminate bag sagging between deckboards and related piercing from fork tines.
- ▶ Clean, dry, no bugs, bark or mold.
- ▶ Freight and space-savings: 50 pallets per stack.
- ▶ Available in many sizes, including Domestic 48" x 40" GMA and half size 24" x 40". EURO metric 1200mm x 800mm and half size 600mm x 800mm.
- ▶ Budget priced to satisfy the most demanding buyer.
- ▶ ISPM 15 export approved: All Litco Inca presswood products are approved for export as is, anywhere in the world! No additional expensive treatment required. Prevent costly, time absorbing delays at foreign ports.

LITCO'S INCA PALLETS

CONVENTIONAL WOODEN PALLET

▶ Inca solid deck pallets do not use nails or staples that can puncture bags.

▶ Molded deck will catch product spills.

▶ Solid deck eliminates bag sagging between deck boards.

▶ Provides ultimate product protection from fork tine puncture.

▶ Solid deck provides lead edge protection from fork tines.

▶ Bags settle into solid deck for increased load stability.
