## Litco Plastic Pallets

The Litco plastic pallets are constructed from high density polyethylene (HDPE) to resist damage as well as offering exceptional resistance to the effects of water, mold, mildew and fungi. This export ready plastic pallet is reusable, easily cleaned and USDA & FDA approved making it ideal for food and pharmaceutical applications. These pallets are easy to handle because of their nestable, space-saving design and 4-way entry making them compatible with forklifts, hand trucks, conveyors and select pallet dispensers.

## FEATURES AND BENEFITS FOR LITCO PLASTIC PALLETS

**Reusable & Cleanable:** High-density, polyethylene construction resists damage, extends service life. Readily steam cleaned or water washed; can be sterilized for sanitary handling.

**USDA & FDA Approved:** Meets requirements for handling food, beverage and meat products.

**Export Ready:** Plastic pallets are not regulated by ISPM-15 because they do not harbor pests and do not need to be heat-treated.

**Cargo Protection:** Reduce load damage, no splinters, nails, metal fasteners, foreign materials.

**Lightweight:** Weighing 34 lbs to permit cost-effective handling, shipping, hauling.

**Space-saving:** Most Litco plastic pallets nest to 65%.

**Weather-tough & Inert:** Withstands heat and cold, rain or snow in transit or outdoor storage for limited periods. Non-rusting, resists staining, does not absorb moisture with upper surfaces being fully drainable. These pallets are inert to most solvents, harsh chemicals, mildew, mold, insects, other pest.

**Lower Cost per Use:** Longer in-service life offers sizable savings over other reusable unit load-handling devices.
